- Easy to operate thanks to user-friendly interface and touchscreen
- Reliable processes with PLC control
- Up to 20 job registries for distinct shrinking projects
- 0-140 cm/min belt speed setting
- Integrated end-product cooling system at the exit
- Precautionary system against jamming accidents

| Properties | Values | Description |
|------------------------|--|--|
| Power Supply | 220 VAC, 50Hz, 2500W | |
| Heater | 6x 400W IR | 2 pieces in each 3 sections |
| Temperature | Core of the IR Heaters: 0-480°C | Application Area: ~ 0-180°C |
| Product Movement Type | Conveyor Belt | Heat-resistant belt |
| Belt Speed | 0-140 cm/min | |
| Product Cooling System | 3x DC axial fan | |
| Recipe Storage | 20 pcs | Distinct settings for different projects |
| Heater Settings | Through power rate and height of the heaters | |
| Dimensions (LxWxH) | 150x90x70 cm | |
| Weight | 140 kg | |
| Display | Touchscreen HMI | |
| Control Type | PLC | |
